GRIS – Detachment Inspection Checklist

Project:	
Unit:	
Remarks:	

Position	Item	Potential Detachment Concern	Residual risk	Expected Qty	Pre-Test Qty Verified	Pre-Test Associated Control / Verification Point		Pre-Test Remarks	Post-Test Qty Verified
1	Cover retaining screw	Backing out	Low	8		Torque mark aligned	☐		
						Retention tape present and intact	☐		
						No visible loosening or backing out	☐		
2	Module joining shoulder screw	Backing out	Low	8		Torque level verified	☐		
3	Extender retaining screw	Backing out	Very Low	6		Torque level verified	☐		
4	ELCID magnetic sensor fastening screw	Backing out / Pull-out	Very Low	2		Torque level verified	☐		
5	Motor cover screw	Backing out / Pull-out	Low	8		Torque mark aligned	☐		
						Retention tape present and intact	☐		
6	ELCID magnetic sensor	Fracture	Very Low	2		No visible damage or degradation	☐		
7	Camera retaining screw	Backing out / Pull-out	Low	10		Torque mark aligned	☐		
8	Gear cover	Fracture / Disengagement	Very Low	2		Fit fully seated	☐		
						Retention tape present and intact	☐		
9	Track belt	Derailment	Very Low	2					
10	Recovery hook	Backing out / Pull-out	Very Low	2		Torque mark aligned	☐		
11	Wheel axle shoulder screw	Backing out	Low	6		Torque mark aligned	☐		
12	Main connector housing screw	Backing out	Very Low	2		Torque mark aligned	☐		
						Retention tape present and intact	☐		
13	Main connector latch screw	Backing out	Very Low	2		Mechanical retention engaged	☐		
14	Bottom camera position locking screw	Backing out	Very Low	2		Mechanical retention engaged	☐		
15	Central slot guide	Disengagement	Very Low	2		Fit fully seated	☐		
						No movement or disengagement	☐		
16	Leaf spring retaining screw	Backing out	Low	2		Torque mark aligned	☐		
						No visible loosening or backing out	☐		
17	Leaf spring	Fracture	Very Low	1		No cracks or permanent deformation	☐		
18	Impactor grub screw	Backing out	Very Low	2		Retention tape present and intact	☐		
						Light torque confirmation	☐		
19	Track wheels	Fracture	Very Low	6		No visible damage or degradation	☐		
20	Magnets retaining screw	Backing out	Low	8		Torque mark aligned	☐		
21	Impact solenoid	Detachment	Very Low	1		Fully seated in mount	☐		
22	Camera lens	Backing out	Very Low	6		No movement under light torque	☐
